Job Vacancy

Postdoctoral fellow position in NTU/SBS

A postdoctoral fellow position is currently available in the laboratory of Dr Guillaume Thibault, School of Biological Sciences, Nanyang Technological University, Singapore (www.thibaultlab.com). The focus of the study will be to characterize the anti-aging role of the unfolded protein response from high glucose diet. This is a follow up of our current manuscript (see preprint in bioRxiv doi.org/10.1101/347435).

Creative and enthusiastic recent Ph.D. graduate with a strong background in one of the following areas: imaging and image analysis, genetics, lifespan assay, biochemistry, molecular cellular biology or computational biology. The position requires highly-motivated person who is able to work independently.

The candidate must have first-hand experience working with C. elegans. Candidate with experience in analyzing large data set (RNA-seq, ChIP-seq, proteomic) will be a plus.

At least one first-author paper in an international peer-reviewed journal is required to be considered for the position.

Successful candidates will have the opportunity to work with an international and multidisciplinary team of investigators.

Candidate should have a Ph.D. in Biology or related field with first-hand experience working with C. elegans.

Preference will be given to those with laboratory experience. Qualified applicants should send their CV, short statement of research interest, and at least two letters of recommendation to:

Dr Guillaume Thibault
